For Your Information . . .

RACING NOTES

The skating course is a measured distance of 110 yards to the lap. Races are measured in multiples of that distance with 16 laps to a mile.

Since it is not possible to have lanes on the ice, you will note that there are four corner "blocks." Skaters must skate around these blocks and are subject to being disqualified if they interfere with another competitor in doing so.

There is a starter and an assistant starter responsible for seeing that every competitor has a fair and equal start. You may see an occasional recall when there is a "false start."

Referees skate around with each group of competitors to see that there is no fouling. When a referee raises his arm it is an indication of a possible disqualification.

Elimination "heats" (trials) are held early in the program to determine finalists for each event.

Competitors classes are arranged in age groups as follows:

PEE WEES	Under 8 years of age
SPECIAL MIDGETS	8-9 years of age
MIDGETS	10-11 years of age
JUVENILES	12-13 years of age
JUNIORS	14-15 years of age
INTERMEDIATES	16-17 years of age
SENIORS	18 years and o'der
